Notes to Condensed Interim Consolidated Financial Statements June 30, 2020 (Expressed in Canadian Dollars) (Unaudited)

1. Nature of operations and going concern

Giyani Metals Corp., formerly Giyani Gold Corp. ("Giyani", or "the Company") was incorporated under the Canada Business Corporations Act on July 26, 2007 and continued under the Business Corporations Act of British Columbia on August 4, 2010. The Company has focused its full attention to advance its manganese assets within the Kanye Basin in south eastern Botswana, Africa (the "Kanye Project"). The registered address is Suite 600, 777 Hornby Street, Vancouver, British Columbia, V6Z 1S4. The Company uses the trading symbol under the TSX Venture Exchange ("TSXV") "EMM".

These unaudited condensed interim consolidated financial statements have been prepared using International Financial Reporting Standards ("IFRS") applicable to a "going concern", which assume that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

These unaudited condensed interim consolidated financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern. The Company reported a net loss of \$465,182 for the six months ended June 30, 2020 (six months ended June 30, 2019 - \$897,331) and had an accumulated deficit of \$34,151,033 as at June 30, 2020 (December 31, 2019 - \$33,685,851). The Company has negative working capital of \$754,436 (December 31, 2019 - \$1,323,611). The continuing operations of the Company are dependent on its ability to generate future cash flows or obtain additional financing. Management is of the opinion that additional funds will be obtained from external financing to meet the Company's liabilities and commitments as they become due, although there is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These factors indicate the existence of material uncertainties that may cast significant doubt as to the Company's ability to continue as a going concern and accordingly use accounting principles applicable to a going concern.

The outbreak of the novel strain of coronavirus, specifically identified as "COVID-19", has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global equity markets have experienced significant volatility. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company and its operating subsidiaries in future periods. The Company is monitoring the business environment as a result to ensure minimal distribution to business operations.

2. Basis of preparation

Statement of compliance

These unaudited condensed interim consolidated financial statements, including comparatives, have been prepared in accordance with International Accounting Standards ("IAS") 34 'Interim Financial Reporting' ("IAS 34") using accounting policies consistent with IFRS issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). The accounting policies and methods of computation applied by the Company in these unaudited condensed interim consolidated financial statements are the same as those applied in the Company's audited annual consolidated financial statements for the year ended December 31, 2019, other than as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual consolidated financial statements for the year ending December 31, 2020 could result in restatement of these unaudited condensed interim consolidated financial statements.

These unaudited condensed interim consolidated financial statements were authorized for issuance by the Board of Directors of the Company on August 6, 2020.

2. Basis of preparation (continued)

New standards adopted

Definition of a Business (Amendments to IFRS 3)

The IASB has issued Definition of a Business (Amendments to IFRS 3) to clarify the definition of a business for the purpose of determining whether a transaction should be accounted for as an asset acquisition or a business combination. The amendments:

- clarify the minimum attributes that the acquired assets and activities must have to be considered a business
- remove the assessment of whether market participants can acquire the business and replace missing inputs or processes to enable them to continue to produce outputs
- narrow the definition of a business and the definition of outputs
- add an optional concentration test that allows a simplified assessment of whether an acquired set of activities and assets is not a business

There was no material impact to the unaudited condensed interim consolidated financial statement of the Company as a result of the adoption of this policy.

New standards not yet adopted

Classification of Liabilities as Current or Non-Current (Amendments to IAS 1)

The IASB has published Classification of Liabilities as Current or Non-Current (Amendments to IAS 1) which clarifies the guidance on whether a liability should be classified as either current or non-current. The amendments:

- clarify that the classification of liabilities as current or non-current should only be based on rights that are in place "at the end of the reporting period"
- clarify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability
- make clear that settlement includes transfers to the counterparty of cash, equity instruments, other assets or services that result in extinguishment of the liability.

This amendment is effective for annual periods beginning on or after January 1, 2022. There is currently a proposal in place to extend effective date for annual periods beginning on or after January 1, 2023. Earlier application is permitted. The extent of the impact of adoption of this amendment has not yet been determined.

4. Exploration and evaluation assets

Botswana

On April 11, 2017, the Company announced the acquisition of six new prospecting licenses that encompass the past producing Kgwakgwe Hill Manganese Mine ("K.Hill") located in the Kanye Basin, south eastern Botswana. Binding agreements were signed with Everbroad Investments (Pty) ("Everbroad") Limited and Marcelle Holdings (Pty) Limited ("Marcelle") to acquire an 88% interest in PL322/2016 (Kgwakgwe Hill License) and 100% interest in PL336/2016 to PL340/2016 (adjacent to K.Hill) inclusive by making cash payments totaling US\$75,000 (paid).

On July 13, 2017, the Company signed a definitive agreement (the "Agreement") with Marcelle to acquire an 88% interest in seven prospecting licences (PL294/2016 to PL300/2016 inclusive) by making cash payments totaling BWP980,000 Botswana Pula (paid). Additionally, the Agreement included the completion of the acquisition of 100% interest in five prospecting licences from Marcelle and an 88% interest in one prospecting licence from Everbroad as mentioned above. The Agreement also included the acquisition of a 100% interest in Menzi Battery (Pty) Limited ("Menzi"), a company incorporated in accordance with the laws of Botswana, by issuing two million common shares of Giyani (issued). The acquisition of Menzi was treated as an asset acquisition as Menzi did not meet the definition of a business under IFRS.

On November 16, 2017, the Company announced the acquisition of an additional licence near the town of Lobatse ("the Lobatse Prospect"). The Lobatse Prospect is located 40 km east of K.Hill. The Lobatse Prospect, along with K.Hill and the Otse Prospect, near the town of Otse, are all located within the boundaries of the Kanye Project area.

All licences had an initial expiry date of December 31, 2019, except for the Lobatse Prospect licence which has an initial expiry December 31, 2020. The licences have minimum aggregated Botswana Pula expenditures of BWP25,450,000 (approximately \$3,043,000) by December 31, 2019 and additional expenditures of BWP2,950,000 (approximately \$350,000) by December 31, 2020 and can be renewed prior to the initial expiry dates. During the three and six months ended June 30, 2020, the government of Botswana granted the Company a two-year extension of all licenses that had an initial expiry date of December 31, 2019, except PL295, PL296, PL299 and PL300, which the Company decided to relinquish in an effort to focus its resources on the licenses with the highest economic potential. The majority of the licenses expenditures, as shown below, qualify towards the minimum required licence expenditures.

South Africa

Rock Island Gold Project

The Company had previously entered into a joint operation agreement relating to the assets of Rock Island Trading 17 (Pty) Ltd. (2) ("Rock Island"), the Company funded the joint operation with Corridor Mining Resources ("CMR") on a 50:50 basis, whereby both parties were to share the costs evenly on an ongoing basis. The joint operation was operated through Rock Island; a company incorporated in South Africa for which Giyani had 28.8% effective ownership.

The Company's exploration permits expired on July 10, 2015. Prior to expiry, an application to extend for a three year retention permit was submitted to the South African Department of Mineral Resources (the "DMR"). This application was submitted by Giyani's partner CMR. At the time, no competing applications were submitted. The DMR confirmed receipt of the application on May 4, 2016. For accounting purposes, the Company had previously recorded the Rock Island Gold Project at \$nil, with an impairment of the full carrying amount reported as a loss in previous periods.

During the year ended December 31, 2019, the Company signed a sale of shares agreement ("Rock Island Agreement") with CMR to sell the Company's effective interest of 28.8% or 45 shares in Rock Island held through Lexshell 837 Investments (Pty) Ltd. ("Lexshell"). The purchase price of the sale of shares was ZAR9,555,046 (\$845,460). The receipt of funds occurs in two tranches; one third immediately on signing of agreement (received) and two thirds on closing of the agreement. As of June 30, 2020, the Rock Island Sale was not closed.

In addition, during the year ended December 31, 2019, the Company entered into a share purchase agreement with Malungani Resources (Pty) Ltd ("Malungani") to acquire Malungani's 36% ownership in Lexshell. In exchange for Malungani's 36% ownership in Lexshell, the Company and Malungani agreed on the following:

- Upon completion of the Rock Island Sale, Lexshell wishes to transfer the Rock Island Sale proceeds to Giyani in settlement of certain inter-company debts.
- The Company is to issue Malungani 1,248,999 common shares of Giyani. One-third of the shares have been issued as of December 31, 2019 and the remaining two-thirds are to be issued once the Company receives the remaining proceeds from the Rock Island Agreement.

5. Investment in associate

On September 23, 2016, as a result of the deconsolidation of Canoe, an equity investment in Canoe of \$906,952 was recorded based on the fair value of the shares held on that date. During the year ended December 31, 2017, Canoe issued additional common shares. As a result the Company's ownership in Canoe decreased from 33.3% to 23.7%.

On January 29, 2018, the Company sold 2,800,000 common shares of Canoe for proceeds of \$350,000, resulting in a gain on disposal of shares of associate of \$243,197. As a result, the Company's ownership in Canoe decreased to 19.7%.

During the six months ended June 30, 2019, the Company liquidated all common shares held of Canoe for proceeds of \$372,651, net of costs of \$3,809, resulting in a loss on disposal of shares of associate of \$16,784. As a result of this sale the Company ceased to have an ownership interest in Canoe.

The continuity of investment in associate is as follows:

	vestment associate
Balance, December 31, 2018	\$ 390,310
Disposal	(390,310)
Balance, December 31, 2019 and June 30, 2020	-

6. Other liabilities

During the year ended December 31, 2017, the Company transferred \$106,943 of accounts payable (the "Statute-barred Claims") to other liabilities on the basis that any claims in respect of the Statute-barred Claims were statute-barred under the Limitations Act (Ontario). The Statute-barred Claims related to expenses billed by, and third party liabilities incurred by prior management of the Company prior to December 2015. However, for accounting purposes under IFRS, a debt can only be removed from the Company's Statement of Financial Position when it is extinguished meaning only when the contract is discharged or canceled or expires. The effect of the Limitations Act is to prevent a creditor from enforcing an obligation but it does not formally extinguish the debt for accounting purposes. It is the position of management of the Company that the Statute-barred Claims cannot be enforced by the creditors, do not create any obligation for the Company to pay out any cash and do not affect the financial or working capital position of the Company. The Statute-barred Claims are required to be reflected on the Company's Statement of Financial Position as a result of the current interpretation of IFRS, but they are classified as long-term liabilities since the Company has no intention or obligation to pay these Statute-barred Claims and the creditors cannot enforce payment of the Statute-barred Claims. While inclusion of these items is intended solely to comply with the requirements of IFRS, the Company in no way acknowledges any of the Statute-barred Claims.

Balance, June 30, 2020	102,253,234	\$ 23,855,745

(i) On April 24, 2019, the Company closed a non-brokered private placement of 2,678,250 units at \$0.16 per unit for total gross proceeds of \$428,520. Each unit consisted of one common share of Giyani and one half of a share purchase warrant exercisable at \$0.275 for a period of 18 months from the date of issuance. As a result of the placement, \$9,450 in finders' fees were paid and \$43,062 in issuance costs were capitalized.

The 1,339,125 full warrants and 16,875 finders' warrants were assigned a fair value of \$79,061 and \$831, respectively, which was determined using the Black-Scholes option pricing model using the following weighted average assumptions: share price - \$0.11, dividend yield - 0%; expected volatility (based on historical price data of the Company's common share) - 144%; risk-free interest rate - 1.71%; and an expected life - 1.5 years.

Officers and directors of the Company subscribed for 1,187,291 units in the private placement for gross proceeds of \$256,750. Related parties settled \$69,755 of debt in conjunction with the private placement.

12. Segmented information

Operating segments are reported in a manner consistent with internal reporting provided to the chief operating decision-maker. The chief operating decision-maker is responsible for allocating resources and assessing performance of the operating segments and has been identified as the Company's Chief Executive Officer.

The Company has three operating segments: the exploration, evaluation and development of manganese and precious metal mining projects located in Botswana ("Botswana Mining") and South Africa ("South Africa Mining"). The rest of the entities within the Company are grouped into a secondary segment ("Corporate").

The segmental report is as follows:

June 30, 2020	Botswana Mining	S	outh Africa Mining	C	orporate	Total

13. Commitments and contingencies

Break Fee Receivable

On October 14, 2015, the Company signed a letter of intent ("LOI") with Crystal Capital Wealth Corporation ("Crystal"). The LOI proposes a transaction pursuant to which the Company would acquire all the issued and outstanding securities of Crystal by means of a Reverse Takeover and Change of Business (the "Transaction").

On March 31, 2016, the Company and Crystal terminated the indicative LOI as it has expired. Under the terms of the Agreement, Giyani is entitled to and will pursue collecting the US\$250,000 break fee. Crystal loaned the Company \$35,000 which will be deducted from the break fee owing. Given the uncertainty of collectability, no amounts have been setup as receivable in these unaudited condensed interim consolidated financial statements.

13. Commitments and contingencies (continued)

Term Sheet

On January 28, 2019, the Company entered into a non-binding term sheet (the "Agreement") with Traxys Africa Trading (Pty) Ltd ("Traxys" or the "Lender") which sets out terms for an investment of US\$1,000,000 in the form of a secured convertible loan facility under which Traxys will have exclusive rights to market all of the direct shipping ore ("DSO") manganese material processed and produced from the Company's K.Hill and Otse reclamation projects in Botswana.

The facility bears interest at the aggregate of 10% and the 3 month US\$ LIBOR per annum compounded quarterly with a term of 36 months. The facility will be repaid on or before the maturity by:

- the future delivery of DSO or other ore as provided for in the Agreement. The net amount (after all
 applicable deductions have been made) of the proceeds derived from the sale of the DSO, will be
 used to reduce the outstanding amount until such date as the outstanding amount has been fully
 repaid,
- at the sole discretion of the Lender, by the Lender exercising its right to conversion shares or,
- repayment in cash by the Corporation of any then remaining outstanding amount at maturity.

The Company, as part of the Agreement, shall pay to Traxys a commission of US\$10 per ton in respect of all material subject to the Agreement. The commission shall be deducted from the proceeds of the sale of the DSO, or other ore, in addition to any repayment deductions, and shall continue to apply for the duration of the Agreement irrespective of the outstanding amount being settled.

The outstanding amount, constituting principal and accrued interest of the facility may be converted into common shares of the Company at any time. The price per conversion share will be \$0.225. In addition, the Company will issue for no additional consideration 3,000,000 unlisted warrants all vesting immediately. Each warrant will be exercisable into one common share of the Company for a period of 36 months from the date of their issuance at an exercise price of \$0.225.

The definitive agreement has not yet been completed and remains under discussion between both parties. Following the outbreak of COVID-19 and the ensuing global pandemic, the Company continues to review its strategy in relation to the DSO program that had been planned in 2019 for commencement in 2020. Until there is clarity of operating practices in Botswana, in order to protect the health and wellbeing of all the Company's employees, consultants and contractors, the DSO program remains under review and has not yet commenced.

14. Subsequent events

On July 5, 2020, the Company issued 375,000 stock options with an exercise price of \$0.15 expiring 5 years from the date of issuance to certain consultants of the Company. The options vested immediately.
