1. Nature of operations

Giyani Metals Corp., formerly Giyani Gold Corp. ("Giyani", or "the Company") was incorporated under the Canada Business Corporations Act on July 26, 2007 and continued under the Business Corporations Act of British Columbia on August 4, 2010. The Company has focused its full attention to advance its recently acquired manganese exploration stage assets within the Kanye Basin in south eastern Botswana, Africa (the "Kanye Project"). Previously the Company was seeking other business opportunities and it was engaged in the acquisition, exploration, evaluation and development of gold resource properties in South Africa and Canada. The registered address is Suite 403 - 277 Lakeshore Road East, Oakville, Ontario, L6J 6J3. The Company trades on the TSX Venture Exchange (“TSXV”) under the symbol “WDG”.

On July 17, 2017, the Company announced a name change from Giyani Gold Corp. to Giyani Metals Corp. to accurately reflect new business developments and marketing of its products.

These consolidated financial statements have been prepared using International Financial Reporting Standards (“IFRS”) applicable to a “going concern”, which assume that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

The Company reported net loss of $57,009 for the three months ended March 31, 2018 (three months ended March 31, 2017 - $235,706) and had an accumulated deficit of $29,889,863 at March 31, 2018 (December 31, 2017 - $29,832,854).

2. Basis of preparation

(a) Statement of compliance

These unaudited condensed interim consolidated financial statements, including comparatives, have been prepared in accordance with International Accounting Standards (“IAS”) 34 ‘Interim Financial Reporting’ (“IAS 34”) using accounting policies consistent with IFRS issued by the International Accounting Standards Board (“IASB”) and Interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”). The accounting policies and methods of computation applied by the Company in these unaudited condensed interim consolidated financial statements are the same as those applied in the Company’s annual consolidated financial statements for the year ended December 31, 2017, other than as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual consolidated financial statements for the year ending December 31, 2018 could result in restatement of these unaudited condensed interim consolidated financial statements.

These unaudited condensed interim consolidated financial statements of the Company, including comparatives, have been prepared in accordance with IFRS as issued by the International Accounting Standards Board.

These unaudited condensed interim consolidated financial statements were authorized for issuance by the Board of Directors of the Company on May 10, 2018.

New standards adopted

IFRS 15 - Revenue from Contracts with Customers. The standard is effective for annual periods beginning on or after January 1, 2018. IFRS 15 specifies how and when to recognize revenue as well as requires entities to provide users of financial statements with more informative, relevant disclosures. The standard supersedes IAS 18 - Revenue, IAS 11 - Construction Contracts, and a number of revenue related interpretations. On January 1, 2018, the Company adopted these amendments and there was no material impact on the Company’s unaudited condensed interim consolidated financial statements.

(Expressed in Canadian Dollars)

2. Basis of preparation (continued)

New standards adopted (continued)

IFRS 9 — Financial instruments ("IFRS 9") was updated by the IASB in November 2009 and will replace part of IAS 39 - Financial Instruments: Recognition and Measurement ("IAS 39"). IFRS 9 addresses the classification and measurement of financial assets. The two measurement categories for financial assets include amortized cost and fair value. All equity instruments are measured at fair value. A debt instrument is recorded at amortized cost only if the entity is holding it to collect contractual cash flows and the cash flows represent principal and interest. Otherwise it is recorded at fair value through profit or loss.

Requirements for financial liabilities were added in October 2010 and they largely carried forward existing requirements in IAS 39, Financial Instruments — Recognition and Measurement, except that fair value changes due to credit risk for liabilities designated at fair value through profit and loss would generally be recorded in other comprehensive income rather than the income statement, unless this creates an accounting mismatch. On January 1, 2018, the Company adopted these amendments and there was no material impact on the Company's unaudited condensed interim consolidated financial statements.

New standards not yet adopted

IFRS 16 - Leases ("IFRS 16") was issued on January 13, 2016 and replaces IAS 17 – Leases as well as some lease related interpretations. With certain exceptions for leases under twelve months in length or for assets of low value, IFRS 16 states that upon lease commencement a lessee recognizes a right-of-use asset and a lease liability. The right-of-use asset is initially measured at the amount of the liability plus any initial direct costs. After lease commencement, the lessee shall measure the right-of-use asset at cost less accumulated depreciation and accumulated impairment. A lessee shall either apply IFRS 16 with full retrospective effect or alternatively not restate comparative information but recognize the cumulative effect of initially applying IFRS 16 as an adjustment to opening equity at the date of initial application. IFRS 16 requires that lessors classify each lease as an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. Otherwise it is an operating lease. IFRS 16 is effective for annual periods beginning on or after January 1, 2019. Earlier adoption is permitted if IFRS 15 has also been applied.

4. Exploration and evaluation assets

Botswana

On April 11, 2017, the Company announced the acquisition of six new prospecting licenses that encompass the past producing Kgwakgwe Hill Manganese Mine ("K. Hill") located in the Kanye Basin, Southeastern Botswana. Binding agreements were signed with Everbroad Investments (Pty) ("Everbroad") Limited and Marcelle Holdings (Pty) ("Marcelle") Limited to acquire an 88% interest in PL322/2016 (Kgwakgwe Hill License) and 100% interest in PL336/2016 to PL340/2016 (adjacent to K. Hill) inclusive by making cash payments totaling US$75,000 (paid).

On July 13, 2017, the Company signed a definitive agreement (the "Agreement") with Marcelle to acquire an 88% interest in seven prospecting licences (PL294/2016 to PL300/2016 inclusive) by making cash payments totaling BWP 980,000 Botswana Pula (paid). Additionally, the Agreement included the completion of the acquisition of 100% interest in five prospecting licences from Marcelle and 88% interest in one prospecting licence from Everbroad as mentioned above. The Agreement also included the acquisition of a 100% interest in Menzi Battery (Pty) Limited ("Menzi"), a company incorporated in accordance with the laws of Botswana, by issuing two million common shares of Giyani (issued). The acquisition of Menzi was treated as an asset acquisition as Menzi did not meet the definition of a business under IFRS.

On November 16, 2017, the Company announced the acquisition of an additional licence near the town of Lobatse ("The Lobatse Prospect"). The Lobatse Prospect is located 40 km east of the K. Hill Prospect. The Lobatse Prospect, along with the K. Hill prospect and the Otse Prospect near the town of Otse, are all located within the boundaries of the Kanye Project area.

All licences have an initial expiry date of December 31, 2019, except for the Lobatse Prospect licence which has an initial expiry December 31, 2020. The licences have minimum Botswana Pula expenditures of BWP25,450,000 by December 31, 2019 and BWP2,950,000 by December 31, 2020 and can be renewed prior to the initial expiry date.

The following table shows the continuity of the acquisition costs and expenditures incurred on the Kanye Project:

	Kanye Project
Balance, December 31, 2016	$ -
Acquisition costs	965,241
Current expenditures	123,488
Balance, December 31, 2017	$ 1,088,729

South Africa

Rock Island Gold Project

Pursuant to the joint operation agreement relating to the assets of Rock Island, the Company funds the joint operation with Corridor Mining Resources (“CMR”) on a 50:50 basis, whereby both parties are to share the costs evenly on an ongoing basis. Exploration costs are recorded in a loan account where interest is accrued at an agreed upon rate. This loan will be repaid out of proceeds from the sale of the Rock Island asset. The loan is unsecured, with no fixed repayment terms and bears interest at South African prime +1%. As at March 31, 2018, the Company had advanced $1,748,823 to Rock Island for exploration work.

4. Exploration and evaluation assets (continued)

South Africa (continued)

Rock Island Gold Project (continued)

The Company's exploration permits expired on July 10, 2015. Prior to expiry, an application to extend for a three year retention permit was submitted to the Department of Mineral Resources (the "DMR"). This application was submitted by Giyani's partner CMR. At the time, no competing applications were submitted. The DMR confirmed receipt of the application on May 4, 2016. For accounting purposes, the Company continues to present the Rock Island Gold Project at $nil.

The Company continues to work towards recovering the loan receivable (approximately $735,000) owed to it by CMR, its joint venture partner on the Rock Island Gold Project. Given the uncertainty of collectability, no amounts have been setup as receivable in these unaudited condensed interim consolidated financial statements.

5. Investment in associate

On September 23, 2016, as a result of the deconsolidation of Canoe, an equity investment in Canoe of $906,952 was recorded based on the fair value of the shares held on that date. During the year ended December 31, 2017, Canoe issued additional common shares. As a result the Company's ownership in Canoe decreased from 33.3% to 23.7%.

On January 29, 2018, the Company sold 2,800,000 common shares of Canoe for proceeds of $350,000, resulting in a gain on disposal of shares of associate of $243,197. As a result, the Company's ownership in Canoe decreased to 19.7%.

During the three months ended March 31, 2018, the Company's share of the losses of Canoe of $10,845 has been recorded in the unaudited condensed interim consolidated statements of loss and comprehensive loss.

The continuity of investment in associate is as follows:

		Investment in associate
Balance, December 31, 2016	$	795,627
Loss pick-up from associate during the period		(163,499)
Balance, December 31, 2017		632,128
Loss pick-up from associate during the period		(10,845)
Disposal		(106,803)
Balance, March 31, 2018	$	514,480

The fair value of the Company's investment in Canoe as at December 31, 2017 was approximately $1,916,600 (December 31, 2017 - $3,298,000).

The table below discloses selected financial information of Canoe on a 100% basis. The Company's ownership in Canoe is 19.7%.

		March 31, 2018		December 31, 2017
Loss and comprehensive loss for the period ended	$	55,033	$	533,684
Total assets	$	1,306,473	$	1,348,955
Total liabilities	$	591,771	$	586,265

(Expressed in Canadian Dollars)

6. Other liabilities

During the year ended December 31, 2017, the Company transferred $106,943 of accounts payable (the "Statute-barred Claims") to other liabilities on the basis that any claims in respect of the Statute-barred Claims were statute-barred under the Limitations Act (Ontario). The Statute-barred Claims related to expenses billed by and third party liabilities incurred by prior management of the Company prior to December 2015. However, for accounting purposes under IFRS, a debt can only be removed from the Company's Statement of Financial Position when it is extinguished meaning only when the contract is discharged or canceled or expires. The effect of the Limitations Act is to prevent a creditor from enforcing an obligation but it does not formally extinguish the debt for accounting purposes. It is the position of management of the Company that the Statute-barred Claims cannot be enforced by the creditors, do not create any obligation for the Company to pay out any cash and do not affect the financial or working capital position of the Company. The Statute-barred Claims are required to be reflected on the Company's Statement of Financial Position as a result of the current interpretation of IFRS, but they are classified as long-term liabilities since the Company has no intention or obligation to pay these Statute-barred Claims and the creditors cannot enforce payment of the Statute-barred Claims. While inclusion of these items is intended solely to comply with the requirements of IFRS, the Company in no way acknowledges any of the Statute-barred Claims.

7. Share capital

7. Share capital (continued)

b) Issued share capital (continued)

(i) On March 14, 2017, the Company closed a non-brokered private placement of 3,521,572 units for total gross proceeds of $1,232,550. Each unit consisted of one common share of Giyani at a price of $0.35 per share and one half of a share purchase warrant exercisable at $0.70 for a period of 18 months from the date of issuance. Total transaction costs of $19,348 were incurred including a finders' fee of $6,300. The 1,760,786 warrants were assigned a fair value of $190,646, net of the allocated transaction costs, which was determined using the Black-Scholes option pricing model using the following assumptions: share price - $0.37, dividend yield - 0%; expected volatility (based on historical price data of the Company's common share) - 119%; risk-free interest rate - 0.82%; and an expected life - 1.5 years.

An officer and director of the Company subscribed for 205,714 units in the private placement for gross proceeds of $72,000.

(ii) On February 8, 2018, the Company closed a non-brokered private placement of 7,207,890 units for total gross proceeds of $1,982,170. Each unit consisted of one common share of Giyani at a price of $0.275 per share and one half of a share purchase warrant exercisable at $0.40 for a period of 18 months from the date of issuance. Total transaction costs of $59,988 were incurred including finders' fees of $43,374.

The 3,603,942 warrants and 157,723 finders' warrants were assigned a fair value of $629,150 and $27,455, respectively, which was determined using the Black-Scholes option pricing model using the following weighted average assumptions: share price - $0.37, dividend yield - 0%; expected volatility (based on historical price data of the Company's common share) - 119%; risk-free interest rate - 0.82%; and an expected life - 1.5 years.

Officers and directors of the Company subscribed for 1,187,291 units in the private placement for gross proceeds of $326,505.

8. Stock options

The Company has adopted an incentive stock option plan in accordance with the policies of the TSXV, under which the Board of Directors of the Company may grant to directors, officers, employees and consultants of the Company, non-transferable options to purchase common shares provided the number of shares reserved for issuance under the stock option plan shall not exceed 10% of the issued and outstanding common shares, exercisable for a period of up to five years from the date of grant. The Board of Directors determines the price per common share and the number of common shares, which may be allotted to directors, officers, employees and consultants, and all other terms and conditions of the option, subject to the rules of the TSXV.

Stock option transactions are summarized as follows:

	Number of stock options outstanding	Weighted average exercise price
Balance, December 31, 2016	3,275,000	$ 0.33
Exercised	(100,000)	0.10

13. Commitments

Break Fee Receivable

On October 14, 2015, the Company signed a letter of intent (“LOI”) with Crystal Capital Wealth Corporation (“Crystal”). The LOI proposes a transaction pursuant to which the Company would acquire all the issued and outstanding securities of Crystal by means of a Reverse Takeover and Change of Business (the “Transaction”).

On March 31, 2016, the Company and Crystal terminated the indicative LOI as it has expired. Under the terms of the Agreement, Giyani is entitled to and will pursue collecting the US$250,000 break fee. Crystal loaned the Company $35,000 which will be deducted from the break fee owing. Given the uncertainty of collectability, no amounts have been setup as receivable in these unaudited condensed interim consolidated financial statements.

Loan Receivable

The Company continues to work towards recovering the funds (approximately $735,000) owed to it by CMR, its joint venture partner on the Rock Island Gold Project. Given the uncertainty of collectability, no amounts have been setup as receivable in these unaudited condensed interim consolidated financial statements.

Commitments to Management Compensation

During the year ended December 31, 2017, the Company signed three consulting agreements with each of the President, CEO and Executive Chairman of the Company. Under the agreements, which each may be extended for one additional year, the Company is committed to the following minimum payments:

2018	$ 313,500
2019	300,833
	$ 614,333

As part of the agreements, in the event of a change of control, the Company shall pay the consultants a lump sum payment equal to 12 months compensation, which totals $498,000.

14. Subsequent event

On April 25, 2018, the Company announced the appointment of Mr. Michael Jones as a Director. In connection with the appointment, Giyani granted 350,000 options exercisable at a price of $0.23 cents per share. The options have a five year term and vested immediately.
