

Giyani Receives EMP Approval from the DEA in Botswana for its Lobatse Manganese Prospect

Not for distribution to U.S. newswire services or for dissemination in the United States

OAKVILLE, Ontario, Feb. 06, 2020 -- Giyani Metals Corp. February 6, 2020 (TSXV:EMM) (FRANKFURT:[KT9](#)) (WKN:A2DUU8) (“**Giyani**” or the “**Company**”) is pleased to announce that The Department of Environmental Affairs (“**DEA**”) in Botswana has approved the Environmental Management Plan (“**EMP**”) for its Lobatse manganese prospect and requested the Company to proceed to the next step of public review.

Giyani submitted the first draft EMP for the Lobatse manganese prospect early in 2019. The Company further submitted a revised EMP, in July 2019, based on feedback from the DEA on the initial submission. On January 16, 2020 Giyani received formal approval from the DEA clearing the way for the next and final step in the process which is a public review of the proposed EMP which requires publication in the government gazette and local newspapers. The public review notice will highlight the location and nature of the proposed activities, and the anticipated environmental impacts along with the mitigating measures the Company proposes to put in place to counter those impacts. The public review notice will be published at least once weekly for four consecutive weeks inviting written comments from interested parties. Giyani has scheduled the first available publication date in the government gazette to commence the public review notification process on February 14, 2020.

Robin Birchall, CEO of Giyani commented:

“We are delighted with Lobatse EMP approval. This is another significant milestone for the Company as it will allow Giyani to proceed with its plans to thoroughly explore this important deposit. The preliminary results from the brief field sampling program in 2017, and exploration drilling in 2018, were very promising. With this EMP approval in place, we expect to be able to conduct a more detailed drilling campaign at Lobatse to fully understand its potential and how it could contribute to the growth of our overall manganese resource in Botswana.”

About Giyani

Giyani Metals Corp. is a Canadian junior exploration company focused on creating shareholder value by accelerating the development of its high-grade manganese project in the Kanye Basin, Botswana, Africa. Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this news release.

The securities described herein have not been registered under the United States Securities Act of 1933, as amended (the “U.S. Securities Act”), or any state securities laws, and accordingly, may not be offered or sold to, or for the account or benefit of, persons in the United States or “U.S. persons,” as such term is defined in Regulation S promulgated under the U.S. Securities Act (“U.S. Persons”), except in compliance with the registration requirements of the U.S. Securities Act and applicable state securities requirements or pursuant to exemptions therefrom. This press release does not constitute an offer to sell or a solicitation of an offer to buy any of the Company’s securities to, or for the account or benefit of, persons in the United States or U.S. Persons.

Forward Looking Information

This press release contains “forward-looking information” within the meaning of applicable Canadian securities legislation. All statements in this news release, other than statements of historical fact, that address events or developments that Giyani expects to occur, are “forward-looking statements”. Forward-looking statements are statements that are not historical facts

and are generally, but not always, identified by the words “expects”, “does not expect”, “plans”, “anticipates”, “does not anticipate”, “believes”, “intends”, “estimates”, “projects”, “potential”, “scheduled”, “forecast”, “budget” and similar expressions, or that events or conditions “will”, “would”, “may”, “could”, “should” or “might” occur.

All such forward-looking statements are based on the opinions and estimates of the relevant management as of the date such statements are made and are subject to certain assumptions, important risk factors and uncertainties, many of which are beyond Giyani’s ability to control or predict. Forward-looking statements are necessarily based on estimates and assumptions that are inherently subject to known and unknown risks, uncertainties and other factors that may cause actual results, level of activity, performance or achievements to be materially different from those expressed or implied by such forward-looking statements. In the case of Giyani, these facts include their anticipated operations in future periods, planned exploration and development of its properties, and plans related to its business and other matters that may occur in the future. This information relates to analyses and other information that is based on expectations of future performance and planned work programs.

Forward-looking information is subject to a variety of known and unknown risks, uncertainties and other factors which could cause actual events or results to differ from those expressed or implied by the forward-looking information, including, without limitation: inherent exploration hazards and risks; risks related to exploration and development of natural resource properties; uncertainty in Giyani’s ability to obtain funding; commodity price fluctuations; recent market events and conditions; risks related to the uncertainty of mineral resource calculations and the inclusion of inferred mineral resources in economic estimation; risks related to governmental regulations; risks related to obtaining necessary licenses and permits; risks related to their business being subject to environmental laws and regulations; risks related to their mineral properties being subject to prior unregistered agreements, transfers, or claims and other defects in title; risks relating to competition from larger companies with greater financial and technical resources; risks relating to the inability to meet financial obligations under agreements to which they are a party; ability to recruit and retain qualified personnel; and risks related to their directors and officers becoming associated with other natural resource companies which may give rise to conflicts of interests. This list is not exhaustive of the factors that may affect Giyani’s forward-looking information. Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in the forward-looking information or statements.

Giyani’s forward-looking information is based on the reasonable beliefs, expectations and opinions of their respective management on the date the statements are made, and Giyani does not assume any obligation to update forward looking information if circumstances or management’s beliefs, expectations or opinions change, except as required by law. For the reasons set forth above, investors should not place undue reliance on forward-looking information. For a complete discussion with respect to Giyani and risks associated with forward-looking information and forward-looking statements, please refer to Giyani’s financial statements and related MD&A, all of which are filed on SEDAR at www.sedar.com.
